

Are you an **ISSA-member distributor or facility service provider** with a great green story you want to share with the industry at ISSA/INTERCLEAN® North America? If so, here's your chance to place your case study, research report, or white paper in the Green Connections Center, an exciting new area on the show floor highlighting the industry's latest initiative to converge cleaning and science to improve occupant health. Attendees will be able to take your literature home to review after the show.

ISSA has planned heavy promotion to drive your customers to this unique area. In turn, your company will be featured in Green Connections Center signage for additional exposure that links your company and this valuable mission of connecting cleaning, science and health.

Yes! I want to participate in the Green Connections Center at ISSA/INTERCLEAN North America 2009 by placing literature in the Resource Library for the special ISSA-member distributor and FSP rate of \$795.
