Biorisk Management and Infection Prevention

GBAC Trusted Advisor

Your Expertise + Our Training

Who are Trusted Advisors?

Trusted Advisors are the conduit between a facility and the GBAC organization

- Facility Consultants
- BSCs and other service providers
- Distributors in the cleaning and office management space
- GBAC Trained Technicians
- Employees of CIMS organizations
- Manufacturing sales professionals

This two-year certification program is designed to take your expertise in facilities management and add critical infectious disease prevention knowledge through the following training modules:

- Infectious Disease Awareness
- Risk Assessment
- Integrated Audits and Inspections
- Chain of Infection
- The GBAC STAR 20 Elements

The Trusted Advisor Program

- Two-year certification with unique ID
- Digital certification badge (Credly) to add to your professional profile, website, and marketing materials
- Listing on the GBAC Trusted Advisor Directory
